## - SERVICES

### **EXPERIENCE - PRECISION - DEDICATION - QUALITY**

Allplates is a Gold Coast based, family owned company founded in 1998. Allplates provides accurate, on-time, high-quality, 3D Drafting, Laser Cutting, CNC Punching, CNC Bending, Welding & Fabrication, Powder Coating and metal processing services using state of the art equipment. Allplates service clients Australia wide, from Perth, Melbourne, Sydney, Brisbane and everywhere in between.

**3D DRAFTING** 

before manufacturing.

CNC PUNCHING

bed size.

**FINISHES** 

The Allplates in-house drafting team uses the

1 Trumpf Turret Punch with offset roll forming

with the added benefit of using a fully automated

loading/unloading system. 1200mm x 2400mm

We offer quality metal finishes such as powder-

coating, hot dip galvanising, electroplating, painting and polishing for many materials.

latest 2D and 3D modelling software and will turn your ideas into reality for you to view on a PC

#### I ASER CUTTING

3 state of the art Trumpf Fibre and C02 laser cutting machines capable of cutting 1500mm x 3000mm sheets up to 25mm thick.

#### CNC BENDING

Our 4 State of the art Trumpf Press Brakes with pressing capability up to 3m in length allow us to offer a cost effective, highly accurate bending solution.

#### WELDING & FABRICATION

Simple to complex welding tasks can easily be handled in our welding and fabrication shop. We provide in-house MIG. TIG and Spot Welding services.

#### EXTRA PROCESSES

Allplates offers a range of extras such as drilling, tapping, countersinking, clinch nuts, standoffs, nutserts & fasteners. Plus much more...

## Our factory operates 24 hours a day, minimising delivery lead times

Our industry-leading innovation and approach to projects means that when you engage with Allplates, you are taking advantage of cutting-edge technology to have your project completed faster, smarter and more efficiently.

Results - We are focused and committed to meeting customer expectations

Efficiency - Attention to detail and industry experience lead to a greater understanding of component details and applications.

Equipped - Using only the best Trumpf machinery and the latest technology to deliver precision, on time projects.

### Laser Cutting Technical Data

Maximum Sheet Size

Maximum Sheet Thickness

25mm - Mild Steel 25mm - Stainless Steel 16mm - Aluminium

1500mm x 3000mm

# **KEY CUSTOMERS & PARTNERS**

## Our capabilities and advanced leading services are recognized by:

Various laser cut and pressed components used in emergency patient and emergency response vehicle manufacture.

Supply of various laser cut and pressed components used in the manufacture of Land 121 Tanker vehicles as well as other heavy vehicle related projects.

Custom laser cut and fabricated stainless steel drains and drainage components.

**OUKCORP** Supply of various laser cut and pressed components used in G-Wagen and emergency response vehicle manufacture. and emergency response vehicle manufacture.

lendlease

Custom laser cut and fabricated stainless steel drains and drainage components.
